The developments have been overturning…
Executive summary of the survey in March

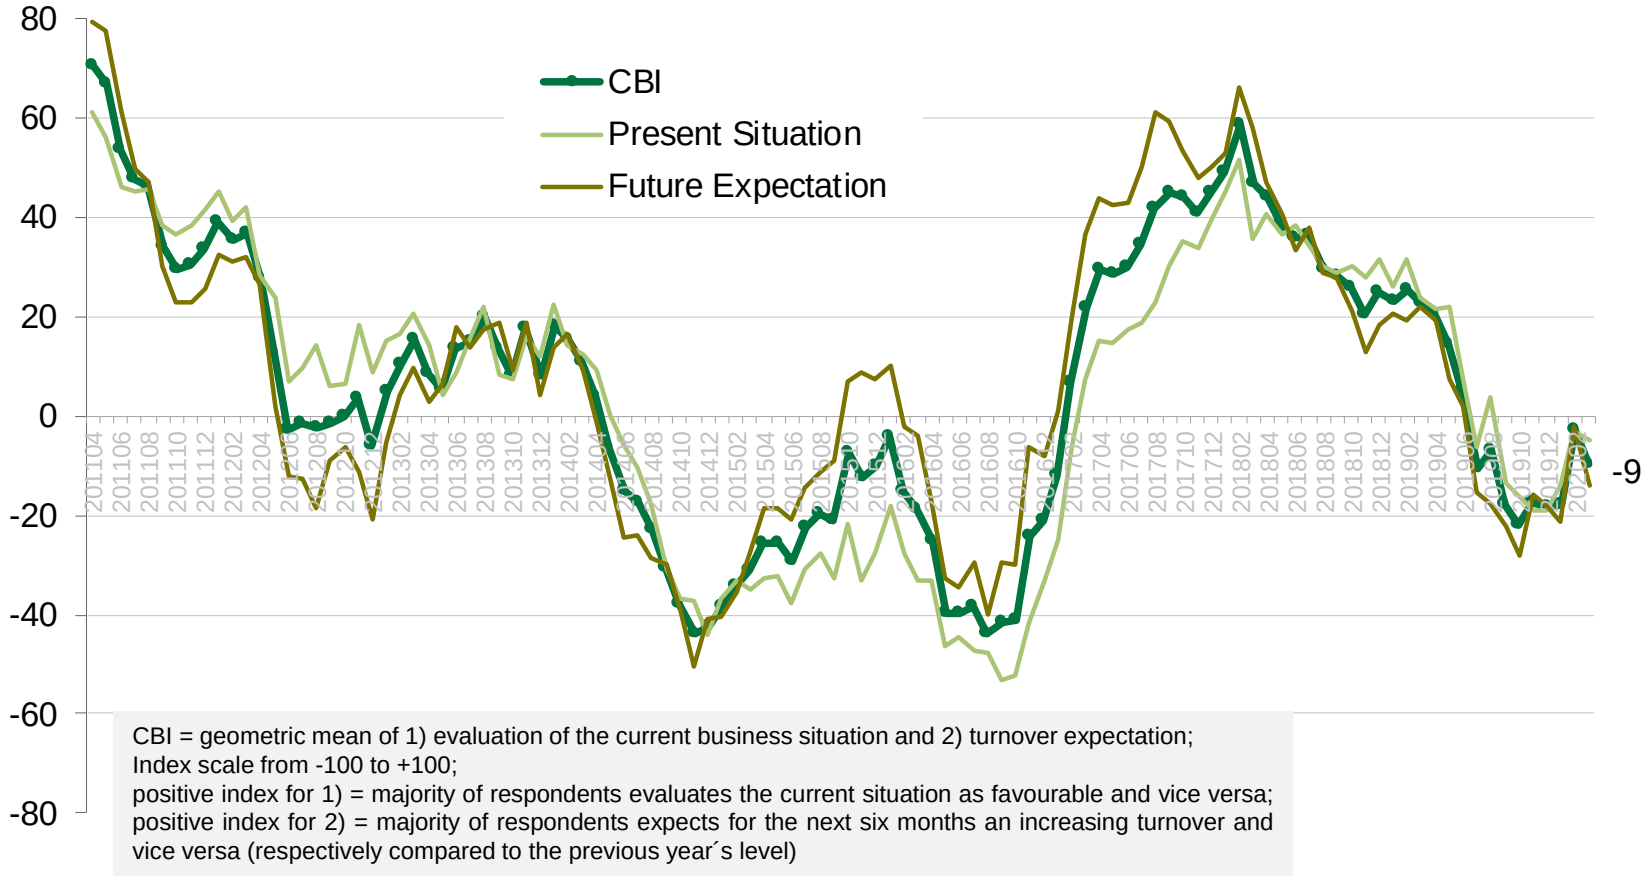

As the developments have been overturning almost every hour in course of the corona virus since the beginning of last week, the results of this survey can unfortunately already be considered as out of date.

An insight into the query system software shows that this time almost 90% of the survey participants already had answered the survey before March 9th. Over half of the survey participants even completed the survey immediately after the survey opened on March 3rd.
